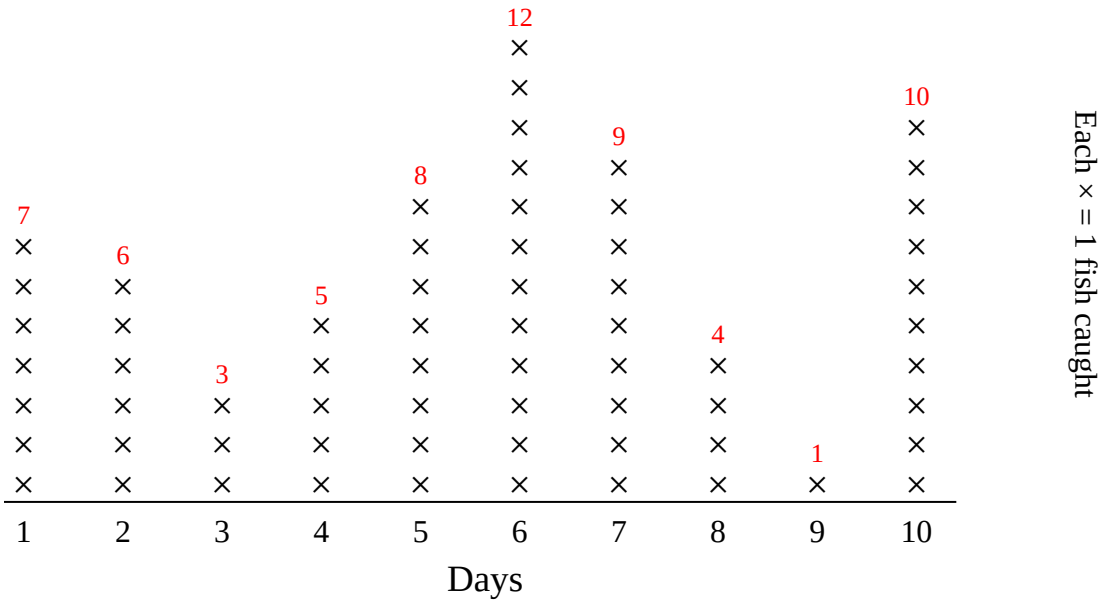
Interpreting Line Plots Name:

A fisherman was keeping track of how many fish he caught over the course of several days. He plotted the information in the line plot below.



1) What day were the greatest number of fish caught?

2) What is the combined amount of fish caught on day 4 and on day 9?

3) Were more fish caught on day 6 or day 8?

4) Which day (or days) were more than 9 fish caught?

5) How many days were more than 3 fish caught?

6) Were fewer fish caught on day 5 or day 6?

7) How many days were fewer than 9 fish caught?

8) Which day were exactly 9 fish caught?

9) What is the difference in the number of fish caught on day 4 and the number caught on day 8?

10) What day were the least number of fish caught?

11) How many fish were caught on day 7?
