

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $564 \div 10 = 56 \text{ r } \underline{\hspace{2cm}}$

2) $27 \div 2 = 13 \text{ r } \underline{\hspace{2cm}}$

3) $4,502 \div 2 = 2,251 \text{ r } \underline{\hspace{2cm}}$

4) $462 \div 2 = 231 \text{ r } \underline{\hspace{2cm}}$

5) $608 \div 10 = 60 \text{ r } \underline{\hspace{2cm}}$

6) $1,308 \div 2 = 654 \text{ r } \underline{\hspace{2cm}}$

7) $414 \div 2 = 207 \text{ r } \underline{\hspace{2cm}}$

8) $8,265 \div 10 = 826 \text{ r } \underline{\hspace{2cm}}$

9) $101 \div 5 = 20 \text{ r } \underline{\hspace{2cm}}$

10) $48 \div 5 = 9 \text{ r } \underline{\hspace{2cm}}$

11) $4,133 \div 10 = 413 \text{ r } \underline{\hspace{2cm}}$

12) $970 \div 5 = 194 \text{ r } \underline{\hspace{2cm}}$

13) $68 \div 2 = 34 \text{ r } \underline{\hspace{2cm}}$

14) $36 \div 5 = 7 \text{ r } \underline{\hspace{2cm}}$

15) $3,763 \div 2 = 1,881 \text{ r } \underline{\hspace{2cm}}$

16) $70 \div 5 = 14 \text{ r } \underline{\hspace{2cm}}$

17) $7,714 \div 5 = 1,542 \text{ r } \underline{\hspace{2cm}}$

18) $81 \div 10 = 8 \text{ r } \underline{\hspace{2cm}}$

19) $159 \div 10 = 15 \text{ r } \underline{\hspace{2cm}}$

20) $3,020 \div 10 = 302 \text{ r } \underline{\hspace{2cm}}$
