

Use addition strategies with place value to solve.

Ex) $895 - 519 = 376$
 $5 - 9 = -4$
 $90 - 10 = 80$
 $800 - 500 = 300$
376

1) $795 - 526 = 269$
 $5 - 6 = -1$
 $90 - 20 = 70$
 $700 - 500 = 200$
269

2) $616 - 473 = 143$
 $6 - 3 = 3$
 $10 - 70 = -60$
 $600 - 400 = 200$
143

3) $919 - 547 = 372$
 $9 - 7 = 2$
 $10 - 40 = -30$
 $900 - 500 = 400$
372

4) $341 + 422 = 763$
 $1 + 2 = 3$
 $40 + 20 = 60$
 $300 + 400 = 700$
763

5) $160 + 216 = 376$
 $0 + 6 = 6$
 $60 + 10 = 70$
 $100 + 200 = 300$
376

6) $324 - 168 = 156$
 $4 - 8 = -4$
 $20 - 60 = -40$
 $300 - 100 = 200$
156

7) $530 + 442 = 972$
 $0 + 2 = 2$
 $30 + 40 = 70$
 $500 + 400 = 900$
972

8) $740 - 478 = 262$
 $0 - 8 = -8$
 $40 - 70 = -30$
 $700 - 400 = 300$
262

9) $157 + 118 = 275$
 $7 + 8 = 15$
 $50 + 10 = 60$
 $100 + 100 = 200$
275

10) $619 - 490 = 129$
 $9 - 0 = 9$
 $10 - 90 = -80$
 $600 - 400 = 200$
129

11) $713 + 283 = 996$
 $3 + 3 = 6$
 $10 + 80 = 90$
 $700 + 200 = 900$
996

Answers

- Ex. 376
 1. 269
 2. 143
 3. 372
 4. 763
 5. 376
 6. 156
 7. 972
 8. 262
 9. 275
 10. 129
 11. 996
