Reading a Bar Graph

The bar graph below shows the number of ads played on different radio stations in a day. Use the graph to answer the questions.

1) Were there more ads on the rock station or the pop station?
2) What is the combined number of ads played on the jazz station and the pop station?
3) How many fewer ads did the 80 s station have than the rock station?
4) Which station had the most ads?
5) How many more ads did the talk station have than the jazz station?
6) What is the difference in the number of ads played on the jazz station and the number played on the rock station?
7) Were there fewer ads on the rock station or the talk station?
8) How many ads were on the 80 s station?
9) Which station had the fewest ads?
10) What is the total number of ads on all the stations?
