# Reading a Bar Graph

Name:

An ice cream store kept track of the different flavored ice cream cones they sold in a day. They recorded the results in the bar graph below. Use their graph to answer the questions.
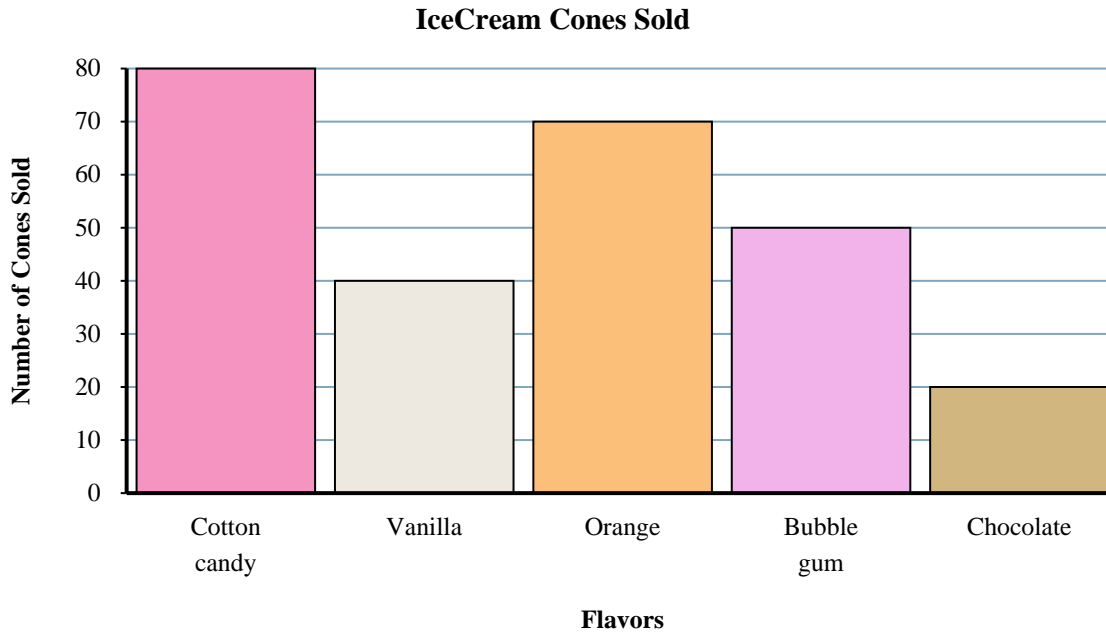

IceCream Cones Sold

1) Which flavor sold the worst?

2) Were there fewer orange or fewer chocolate cones sold?

3) Which flavor sold exactly 40 cones?

4) Were there more vanilla or more cotton candy cones sold?

5) Which flavor sold the best?

6) What is the difference in the number of cotton candy cones and the number of orange cones sold?

7) How many more bubble gum cones were sold than chocolate cones?

8) How many chocolate cones were sold?

9) What is the total number of cones sold?

10) What is the combined number of vanilla cones and bubble gum cones sold?
