## Follow the instructions to find the number you end at.

Ex) Start at 540 and count up 3 times by fives.

1) Start at 104 and count up 3 times by hundreds.
2) Start at 765 and count up 3 times by fives.
3) Start at 899 and count up 2 times by tens.
4) Start at 365 and count up 4 times by fives.
5) Start at 200 and count up 2 times by hundreds.
6) Start at 414 and count up 4 times by tens.
7) Start at 94 and count up 3 times by hundreds.
8) Start at 572 and count up 4 times by hundreds.
9) Start at 715 and count up 3 times by fives.
10) Start at 860 and count up 3 times by fives.
11) Start at 875 and count up 5 times by fives.
12) Start at 495 and count up 5 times by hundreds.
13) Start at 765 and count up 5 times by fives.
14) Start at 409 and count up 2 times by hundreds.
15) Start at 455 and count up 3 times by tens.
16) Start at 672 and count up 3 times by tens.
17) Start at 90 and count up 5 times by fives.
18) Start at 422 and count up 2 times by tens.
19) Start at 593 and count up 5 times by tens.
20) Start at 250 and count up 5 times by tens.
