## Follow the instructions to find the number you end at.

Ex) Start at 550 and count up 3 times by fives.

1) Start at 537 and count up 3 times by tens.
2) Start at 520 and count up 3 times by fives.
3) Start at 434 and count up 3 times by tens.
4) Start at 724 and count up 4 times by tens.
5) Start at 205 and count up 5 times by fives.
6) Start at 468 and count up 2 times by hundreds.
7) Start at 520 and count up 4 times by fives.
8) Start at 941 and count up 2 times by tens.
9) Start at 799 and count up 3 times by tens.
10) Start at 380 and count up 3 times by fives.
11) Start at 440 and count up 4 times by fives.
12) Start at 410 and count up 5 times by hundreds.
13) Start at 415 and count up 3 times by fives.
14) Start at 763 and count up 4 times by tens.
15) Start at 35 and count up 5 times by hundreds.
16) Start at 66 and count up 2 times by hundreds.
17) Start at 458 and count up 4 times by hundreds.
18) Start at 24 and count up 5 times by hundreds.
19) Start at 40 and count up 2 times by fives.
20) Start at 740 and count up 4 times by tens.
