

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $2,497 \div 10 = 249 \text{ r } \underline{\hspace{2cm}}$

2) $71 \div 5 = 14 \text{ r } \underline{\hspace{2cm}}$

1. _____

3) $484 \div 10 = 48 \text{ r } \underline{\hspace{2cm}}$

4) $88 \div 2 = 44 \text{ r } \underline{\hspace{2cm}}$

2. _____

5) $247 \div 10 = 24 \text{ r } \underline{\hspace{2cm}}$

6) $219 \div 2 = 109 \text{ r } \underline{\hspace{2cm}}$

3. _____

7) $63 \div 10 = 6 \text{ r } \underline{\hspace{2cm}}$

8) $57 \div 2 = 28 \text{ r } \underline{\hspace{2cm}}$

4. _____

9) $3,272 \div 10 = 327 \text{ r } \underline{\hspace{2cm}}$

10) $2,006 \div 5 = 401 \text{ r } \underline{\hspace{2cm}}$

5. _____

11) $5,377 \div 10 = 537 \text{ r } \underline{\hspace{2cm}}$

12) $38 \div 2 = 19 \text{ r } \underline{\hspace{2cm}}$

6. _____

13) $1,308 \div 5 = 261 \text{ r } \underline{\hspace{2cm}}$

14) $2,968 \div 2 = 1,484 \text{ r } \underline{\hspace{2cm}}$

7. _____

15) $878 \div 10 = 87 \text{ r } \underline{\hspace{2cm}}$

16) $24 \div 2 = 12 \text{ r } \underline{\hspace{2cm}}$

8. _____

17) $95 \div 2 = 47 \text{ r } \underline{\hspace{2cm}}$

18) $783 \div 2 = 391 \text{ r } \underline{\hspace{2cm}}$

9. _____

19) $79 \div 5 = 15 \text{ r } \underline{\hspace{2cm}}$

20) $47 \div 5 = 9 \text{ r } \underline{\hspace{2cm}}$

10. _____

11. _____

12. _____

13. _____

14. _____

15. _____

16. _____

17. _____

18. _____

19. _____

20. _____

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $2,497 \div 10 = 249 \text{ r } \underline{7}$

2) $71 \div 5 = 14 \text{ r } \underline{1}$
