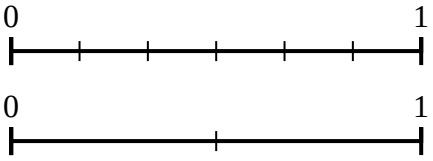
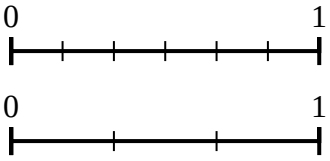
Use the number lines to answer the questions.

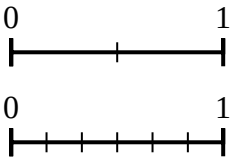
1) Using the number lines shown, what is the equivalent fraction to $^{0}/_{6}$?



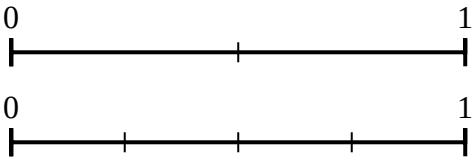
2) Using the number lines shown, what is the equivalent fraction to $^{6}/_{6}$?



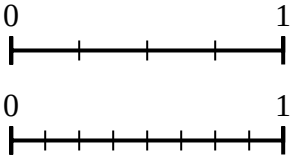
3) Using the number lines shown, what is the equivalent fraction to $^{2}/_{2}$?



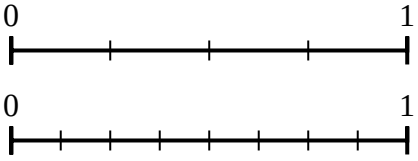
4) Using the number lines shown, what is the equivalent fraction to $^{2}/_{2}$?



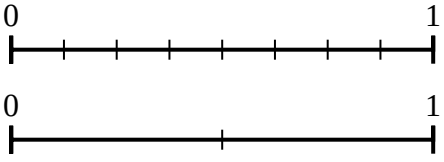
5) Using the number lines shown, what is the equivalent fraction to $^{4}/_{4}$?



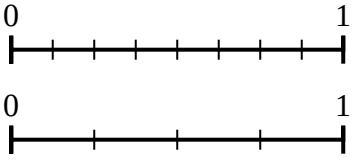
6) Using the number lines shown, what is the equivalent fraction to $^{2}/_{4}$?



7) Using the number lines shown, what is the equivalent fraction to $^{8}/_{8}$?



8) Using the number lines shown, what is the equivalent fraction to $^{6}/_{8}$?



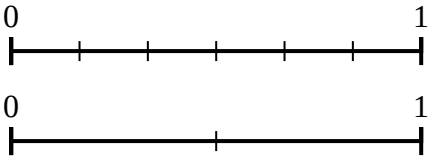
Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____

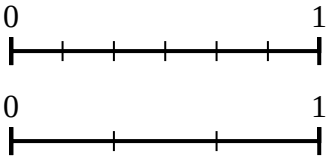
1-8	88	75	63	50	38	25	13	0

Use the number lines to answer the questions.

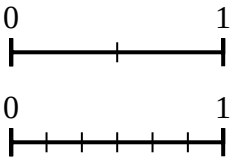
1) Using the number lines shown, what is the equivalent fraction to $^{0}/_{6}$?



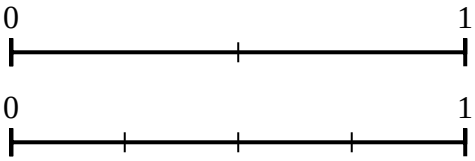
2) Using the number lines shown, what is the equivalent fraction to $^{6}/_{6}$?



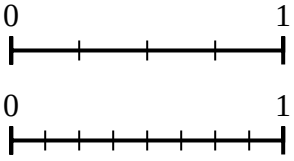
3) Using the number lines shown, what is the equivalent fraction to $^{2}/_{2}$?



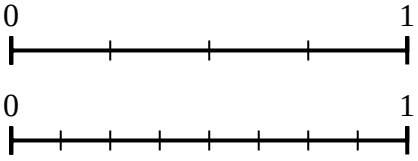
4) Using the number lines shown, what is the equivalent fraction to $^{2}/_{2}$?



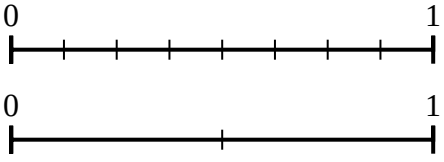
5) Using the number lines shown, what is the equivalent fraction to $^{4}/_{4}$?



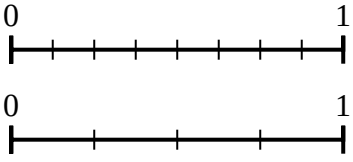
6) Using the number lines shown, what is the equivalent fraction to $^{2}/_{4}$?



7) Using the number lines shown, what is the equivalent fraction to $^{8}/_{8}$?



8) Using the number lines shown, what is the equivalent fraction to $^{6}/_{8}$?



Answers

1. $^{0}/_{2}$
2. $^{3}/_{3}$
3. $^{6}/_{6}$
4. $^{4}/_{4}$
5. $^{8}/_{8}$
6. $^{4}/_{8}$
7. $^{2}/_{2}$
8. $^{3}/_{4}$

1-8	88	75	63	50	38	25	13	0

Use the number lines to answer the questions.

1)

2)
