John and his friends were playing the game 'Tubular Trivia'. They recorded their results in the line plot below. Use their line plot to answer the questions.

1) Did they score fewer points in round 7 or round 9 ?
2) What is the difference in the number of points they scored in round 8 and the number they scored in round 7 ?
3) Which round did they score exactly 5 points?
4) Which rounds (if any) did they score more than 9 points?
5) What is the combined points they scored in round 2 and round 7 ?
6) How many rounds did they score fewer than 9 points?
7) They scored the most points in which round?
8) How many rounds did they score more than 9 points?
9) Did they score more points in round 10 or round 5 ?
10) How many points did they score in round 2 ?
11) Which round did they score the fewest points?
