

Solve each problem.

- 1) The table below shows the number of books Carol read the first 3 months of school.

Month	Books Read
1	27
2	39
3	37

If Jerry read 4 times as many books as Carol, how many fewer books did Carol read?

- 2) The table below show the points Lana scored on a video game each time she played.

Game #	Points Scored
1	118
2	135
3	162

After the first 3 games, she took a break and came back the next day and scored 3 times as many points as she had during all the previous games combined. How many fewer points did she score before her break than she scored after her break?

- 3) The table below show the customers an arcade had leading up to the weekend.

Day	Customers
Tuesday	198
Wednesday	171
Thursday	135
Friday	104

Over the weekend they had 9 times as many customers as they did before in the previous 4 days. How many more customers did they have over the weekend than they had in the previous 4 days?

- 4) A new fast food restaurant opened 5 months ago. The table belows shows the number of burgers they've sold so far.

Month	Burgers Sold
1	2,902
2	3,785
3	1,997
4	2,306
5	1,569

The next month (after spending some money on an ad) they sold 3 times as many as they had sold in the previous 5 months. How many fewer burgers did they sell before running the ad than they did after running it?
