

Solve each problem.

- 1) The table below show the pounds of candy a company sold in the months leading up to October.

Month	Pounds of Candy Sold
June	169
July	185
August	184
September	195

In October they sold 7 times as many pounds of candy as they did in the previous 4 months combined. How many more pounds did they sell in October than were sold in the previous 4 months?

- 3) A new fast food restaurant opened 5 months ago. The table belows shows the number of burgers they've sold so far.

Month	Burgers Sold
1	3,052
2	2,310
3	3,986
4	2,857
5	1,952

The next month (after spending some money on an ad) they sold 8 times as many as they had sold in the previous 5 months. How many more burgers did they sell after running the ad?

- 2) The table below shows the number of books Rachel read the first 3 months of school.

Month	Books Read
1	33
2	40
3	27

If Cody read 10 times as many books as Rachel, how many fewer books did Rachel read?

- 4) The table below show the customers an arcade had leading up to the weekend.

Day	Customers
Tuesday	182
Wednesday	140
Thursday	181
Friday	176

Over the weekend they had 3 times as many customers as they did before in the previous 4 days. How many more customers did they have over the weekend than they had in the previous 4 days?
