

Solve each problem.

Answers

- 1) For Halloween Bianca received six pieces of candy from neighbors and two pieces from her older sister. If she only ate four pieces a day, how long would the candy last her?
- 2) For homework Haley had twenty-four math problems and sixteen spelling problems. If she can finish eight problems in an hour how long will it take her to finish all the problems?
- 3) A pet shelter had six puppies when another twenty-one were brought in. If nine puppies a day are adopted, how long would it take for all of them to be adopted?
- 4) A vase can hold five flowers. If you had twenty carnations and fifteen roses, how many vases would you need to hold the flowers?
- 5) A group of eight friends went into a restaurant. The chef already had fifty chicken wings cooked but cooked twenty-two more for the group. If they each got the same amount how many would each person get?
- 6) Paige and her friends were recycling paper for their class. For every five pounds they recycled they earned 1 point. If Paige recycled two pounds and her friends recycled twenty-three pounds, how many points did they earn?
- 7) Sam had saved up eight dollars. If he received another four dollars for his allowance, how many four dollar toys could he buy?
- 8) Sarah was making baggies of cookies with four cookies in each bag. If she had three chocolate chip cookies and seventeen oatmeal cookies, how many baggies could she make?
- 9) For a birthday party Henry bought sixty-seven regular sodas and five diet sodas. If his fridge would only hold nine on each shelf, how many shelves would he fill up?
- 10) Nancy uploaded fourteen pictures from her phone and twenty-two from her camera to Facebook. If she sorted the pics into nine different albums with the same amount of pics in each album, how many pictures were in each of the albums?
