Two Step Problems

Name:

Solve each problem.

1) Tom made seven dollars mowing lawns and twenty-one dollars weed eating. If he only spent seven dollar a week, how long would the money last him?

2) The school's debate team had twenty-one boys and seven girls on it. If they were split into groups of seven how many groups could they make?

3) Haley uploaded eight pictures from her phone and six from her camera to Facebook. If she sorted the pics into seven different albums with the same amount of pics in each album, how many pictures were in each of the albums?

4) For Halloween Rachel received fifty-four pieces of candy from neighbors and eighteen pieces from her older sister. If she only ate nine pieces a day, how long would the candy last her?

5) Will was helping the cafeteria workers pick up lunch trays, but he could only carry six trays at a time. If he had to pick up twenty-two trays from one table and twenty trays from another, how many trips will he make?

6) A vase can hold six flowers. If you had twenty carnations and sixteen roses, how many vases would you need to hold the flowers?

7) For a birthday party Cody bought nine regular sodas and fifteen diet sodas. If his fridge would only hold six on each shelf, how many shelves would he fill up?

8) Olivia was making baggies of cookies with seven cookies in each bag. If she had three chocolate chip cookies and eleven oatmeal cookies, how many baggies could she make?

9) Carol's old washing machine could only wash eight pieces of clothing at a time. If she had to wash seven shirts and forty-one sweaters how many loads would she have to do?

10) A toy store had eight giant stuffed bears in stock when they got another shipment with ten bears in it. The put the bears onto shelves with three on each shelf. How many shelves did they use?

Answers

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

9. _____

10. _____

Math

Solve each problem.

1) Tom made seven dollars mowing lawns and twenty-one dollars weed eating. If he only spent seven dollar a week, how long would the money last him?

1. **4**

2. **4**

2) The school's debate team had twenty-one boys and seven girls on it. If they were split into groups of seven how many groups could they make?

3. **2**

4. **8**

3) Haley uploaded eight pictures from her phone and six from her camera to Facebook. If she sorted the pics into seven different albums with the same amount of pics in each album, how many pictures were in each of the albums?

5. **7**

6. **6**

4) For Halloween Rachel received fifty-four pieces of candy from neighbors and eighteen pieces from her older sister. If she only ate nine pieces a day, how long would the candy last her?

7. **4**

8. **2**

5) Will was helping the cafeteria workers pick up lunch trays, but he could only carry six trays at a time. If he had to pick up twenty-two trays from one table and twenty trays from another, how many trips will he make?

9. **6**

10. **6**

6) A vase can hold six flowers. If you had twenty carnations and sixteen roses, how many vases would you need to hold the flowers?

7) For a birthday party Cody bought nine regular sodas and fifteen diet sodas. If his fridge would only hold six on each shelf, how many shelves would he fill up?

8) Olivia was making baggies of cookies with seven cookies in each bag. If she had three chocolate chip cookies and eleven oatmeal cookies, how many baggies could she make?

9) Carol's old washing machine could only wash eight pieces of clothing at a time. If she had to wash seven shirts and forty-one sweaters how many loads would she have to do?

10) A toy store had eight giant stuffed bears in stock when they got another shipment with ten bears in it. The put the bears onto shelves with three on each shelf. How many shelves did they use?

Solve each problem.

1) Tom made 7 dollars mowing lawns and 21 dollars weed eating. If he only spent 7 dollar a week, how long would the money last him?

1. _____

2. _____

2) The school's debate team had 21 boys and 7 girls on it. If they were split into groups of 7 how many groups could they make?

3. _____

4. _____

3) Haley uploaded 8 pictures from her phone and 6 from her camera to Facebook. If she sorted the pics into 7 different albums with the same amount of pics in each album, how many pictures were in each of the albums?

5. _____

6. _____

4) For Halloween Rachel received 54 pieces of candy from neighbors and 18 pieces from her older sister. If she only ate 9 pieces a day, how long would the candy last her?

7. _____

8. _____

5) Will was helping the cafeteria workers pick up lunch trays, but he could only carry 6 trays at a time. If he had to pick up 22 trays from one table and 20 trays from another, how many trips will he make?

9. _____

10. _____

6) A vase can hold 6 flowers. If you had 20 carnations and 16 roses, how many vases would you need to hold the flowers?

7) For a birthday party Cody bought 9 regular sodas and 15 diet sodas. If his fridge would only hold 6 on each shelf, how many shelves would he fill up?

8) Olivia was making baggies of cookies with 7 cookies in each bag. If she had 3 chocolate chip cookies and 11 oatmeal cookies, how many baggies could she make?

9) Carol's old washing machine could only wash 8 pieces of clothing at a time. If she had to wash 7 shirts and 41 sweaters how many loads would she have to do?

10) A toy store had 8 giant stuffed bears in stock when they got another shipment with 10 bears in it. The put the bears onto shelves with 3 on each shelf. How many shelves did they use?
