Name: _____

Solve each problem.

1) At the arcade, Paul won ten tickets playing 'whack a mole' and thirty-five tickets playing 'skee ball'. If he spent eighteen of his tickets on a hat, how many tickets does Paul have left?

1. _____

2. _____

2) Isabel had twenty-seven music files and thirty-three video files on her flash drive. If she deleted forty-three of the files, how many files were still on her flash drive?

3. _____

4. _____

3) Bianca bought two coloring books. One had thirty-two pictures and the other had nineteen. After one week she had already colored forty-seven of the pictures. How many pictures does she still have to color?

5. _____

6. _____

4) Roger had to wash five short sleeve shirts and thirty-six long sleeve shirts before school. If he had only washed twenty-two of them by the time school started, how many did he not wash?

7. _____

8. _____

5) Lana and her mom were picking carrots from their garden. Lana picked thirty-seven and her mother picked fifteen. If only seventeen of the carrots were good, how many bad carrots did they have?

9. _____

10. _____

6) At the school's book fair Victor bought twenty-nine adventure books and four mystery books. If six of the books were used, how many new books did he buy?

7) Edward had forty dollars. For his birthday he got twenty-seven more dollars but spent twenty-seven on a new game. How much money does he have now?

8) A waiter at 'The Greasy Spoon' restaurant had fifteen customers to wait on. During the lunch rush he added another ten customers. If fourteen of the customers didn't leave him a tip, how many customers did leave a tip?

9) Janet was playing a trivia game. In the first round she scored thirty points and in the second round she scored thirty-seven points. In the last round she lost two points. How many points did she have at the end of the game?

10) The school cafeteria ordered twenty-six red apples and five green apples for student's lunches. But, if only twenty-nine students wanted fruit, how many extra did the cafeteria end up with?
