

Use each diagram to solve the problems.

1) If you were to select 1 shape at random from the array, what shape do you have the greatest probability of selecting?

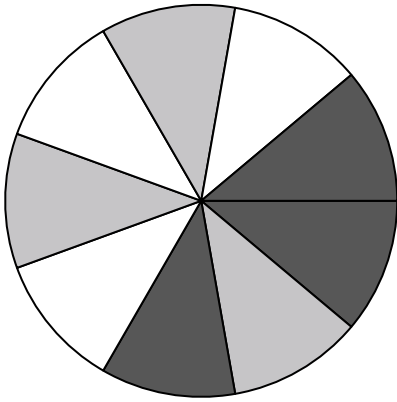

2) How many shapes are there total in the array?

3) If you were to select 1 shape at random from the array, what is the probability it will be a square?

4) Which shape has a 0.25% chance (4 out of 16) of being selected?

5) If you spun the spinner 1 time, what is the probability it would land on a gray piece?

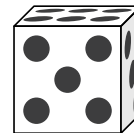

6) If you spun the spinner 1 time, what is the probability of landing on either a black piece or a gray piece?

7) If you spun the spinner 1 time, what is the probability it would land on a black piece?

8) If you spun the spinner 1 time, what is the probability it would land on a white piece?

9) How many pieces are there total in the spinner?

10) If you were to roll the dice one time what is the probability it will NOT land on a 1?

11) If you were to roll the dice one time what is the probability it will land on a 4?

12) If you were to roll the dice one time, what is the probability of it landing on an odd number?

Answers

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

9. _____

10. _____

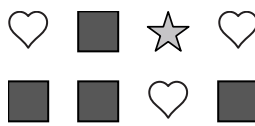

11. _____

12. _____
