|           | Determining Probability with Candy Name:   |                |
|-----------|--|----------------|
|           |  |                |
|           | Tasty Candy /  | <u>Answers</u> |
| $\square$ | L'EISLY CEINICY  |                |
|           |  | 1              |
|           |  |                |
|           | lemon lemon  | 2.             |
|           |  |                |
|           | lemon grape grape  | 2              |
|           |  | 3              |
|           | cherry lemon grape   |                |
|           | cherry   | 4              |
|           |  |                |
|           | cherry lemon   | 5              |
|           |  |                |
|           | cherry   | 6.             |
|           |  |                |
|           |  | 7.             |
| 1)        | How many total pieces of candy are in the box?   |                |
|           |  | 8.             |
|           |  | 0              |
| 2)        | If you picked 1 piece of candy out of the box which flavor would you have the highest  |                |
|           | probability of selecting?  | 9              |
|           |  |                |
| 3)        | What is the probability of selecting either a cherry piece OR a grape piece?           | 10             |
|           |  |                |
| •         |  |                |
| 4)        | What is the probability of selecting a grape piece?                                    |                |
|           |  |                |
| -         |  |                |
| 5)        | Which flavor has the lowest probability of being selected?                             |                |
|           |  |                |
| 6)        | What is the grabability of calcoting a lamon gives?                                    |                |
| 6)        | What is the probability of selecting a lemon piece?                                    |                |
|           |  |                |
| 7)        | If you ate 3 lemon pieces, 3 cherry pieces and 3 grape pieces, which flavor would you  |                |
| .,        | have the highest probability of selecting next?  |                |
|           |  |                |
| 8)        | If you picked a piece at random would you be more likely to select, a lemon piece or a |                |
| - /       | cherry piece?  |                |
|           | ••   |                |
| 9)        | Your friend wants either a cherry piece or a grape piece. If you picked a piece out    |                |
|           | randomly, which one would you have the highest probability of selecting?               |                |
|           |  |                |
| 10)       | What is the probability of selecting a cherry piece?                                   |                |
|           |  |                |
|           |  |                |
