Finding Differences - Multiple Subtrahends Name:
Use subtraction to solve each problem.

1) A school had chocolate, regular and strawberry milk. If the cafeteria had 979 cartons total, with 180 chocolate milk cartons and 407 regular milk cartons, how many cartons of strawberry did they have?

1. _____

2. _____

2) For the football game a vendor popped 1,377 bags of popcorn. If he sold 117 bags before the game and 823 during the game, how many bags does he still have to sell?

3. _____

4. _____

3) While building a house an architect used 1,985 nails. If he used 515 nails on the first floor and 608 on the roof, how many nails did he use in other places?

5. _____

6. _____

4) On her mp3 player, Maria had 2,137 songs. If she deleted 877 songs on Monday and another 412 on Tuesday, how many songs would she have left?

7. _____

8. _____

5) A donation center was trying to get a total of 1,772 cans. If they received 754 cans the first day and another 860 the second day, how many more cans did they need to get to reach their goal?

9. _____

10. _____

6) A cookie company baked 1,390 cookies for their annual bake sale. If they sold 290 of them in the first hour and 313 more the rest of the day, how many cookies did they have left?

7) A car dealer had 1,513 of last years cars in stock they needed to sell. They sold 179 the first week and 785 the second week. How many cars did they have left to sell after the first and second week?

8) To prepare for a marathon, Nancy decided to try and jog 1,091 meters in one day. If she jogged 283 meters in the morning and 378 in the afternoon, how many more meters does she need to jog?

9) A video rental machine had 1,523 movies total. If there were 309 movies rented on Friday and 633 rented on Saturday, how many movies would be left in the machine?

10) In one season a farmer picked 1,260 potatoes. If 218 of them were bad and he sold another 283 of them, how many did he have left?

Answer Key

Use subtraction to solve each problem.

1) A school had chocolate, regular and strawberry milk. If the cafeteria had 979 cartons total, with 180 chocolate milk cartons and 407 regular milk cartons, how many cartons of strawberry did they have?

1. **392**

2) For the football game a vendor popped 1,377 bags of popcorn. If he sold 117 bags before the game and 823 during the game, how many bags does he still have to sell?

2. **437**

3. **862**

3) While building a house an architect used 1,985 nails. If he used 515 nails on the first floor and 608 on the roof, how many nails did he use in other places?

4. **848**

5. **158**

4) On her mp3 player, Maria had 2,137 songs. If she deleted 877 songs on Monday and another 412 on Tuesday, how many songs would she have left?

6. **787**

7. **549**

5) A donation center was trying to get a total of 1,772 cans. If they received 754 cans the first day and another 860 the second day, how many more cans did they need to get to reach their goal?

8. **430**

9. **581**

6) A cookie company baked 1,390 cookies for their annual bake sale. If they sold 290 of them in the first hour and 313 more the rest of the day, how many cookies did they have left?

10. **759**

7) A car dealer had 1,513 of last years cars in stock they needed to sell. They sold 179 the first week and 785 the second week. How many cars did they have left to sell after the first and second week?

8) To prepare for a marathon, Nancy decided to try and jog 1,091 meters in one day. If she jogged 283 meters in the morning and 378 in the afternoon, how many more meters does she need to jog?
