## Solve each problem using a tape diagram.

1) 

Vanessa went shopping on Black Friday. She spent $\$ 882$ total. $4 / 9$ of what she spent was at Best Buy. She spent $1 / 5$ of what was left at Kohls and the rest she spent at Target. How much did she spend at Target?

1. $\qquad$
2. $\qquad$
3. $\qquad$
4. $\qquad$
2) At Tiffany's Ice Cream Emporium they sold 408 ice cream cones in a day. $4 / 8$ of them sold were chocolate. $1 / 4$ of the ones that weren't chocolate were vanilla. And the remaining were pistachio. How many pistachio cones did they sell?
3) 

On Victor's phone he has 592 songs. $6 / 8$ of the songs are alternative. $1 / 2$ of the rest of the songs were rock. How many songs are on his phone that aren't rock or alternative?
4) A store started with 870 sodas. They sold $7 / 10$ of them over the next month and they had to throw out $1 / 3$ of the ones that were left because they were expired. How many sodas did they have at the end?
5) At the school carnival $3 / 8$ of the money spent is spent on games. Of what is not spent on games, $2 / 5$ is spent on food. If $\$ 600$ are spent each day at the carnival, how much is not spent on games or food?
