Determine the elapsed time for each problem.

1) Frank started looking for his missing cat at $6: 20$. If he found it at $8: 05$, how long did he spend looking?
2) Carol took a train from her house to the state capitol. The train left at $2: 15$ and got to the capitol at $3: 15$. How long was the train ride?
3) Bianca finished cleaning her room at $5: 30$. If she had started cleaning it at $2: 15$, how long did it take her to clean her room?
4) Cody woke up from a nap at $2: 55$. If he originally went to sleep at $1: 35$, how long was his nap?
5) Victor finished his homework at 8:50. If he started working on it at 5:00, how long did it take him to finish?
6) Nancy went to the town carnival. She arrived at 1:05 and left at 3:00. How long did Nancy spend at the carnival?
7) Haley's band practice started at 1:05. If the practice ended at $3: 15$, how long did it last?
8) Adam started reading a book at 6:55. If he finished it at 9:00, how long did he spend reading?
9) Faye finished washing clothes at 5:30. If she had started at 4:20, how long would she have spent washing clothes?
10) George started cleaning up his yard at $4: 10$. If he finally finished at $7: 45$, how long did George spend cleaning his yard?
