

Solve each problem.

- 1) What is the value of the 6 in the number 458,671?
- 2) What is the value of the 2 in the number 798,421?
- 3) What is the value of the 3 in the number 4,832?
- 4) What is the value of the 7 in the number 147,865?
- 5) What is the value of the 2 in the number 987,325?
- 6) What is the value of the 8 in the number 95,786,241?
- 7) What is the value of the 6 in the number 5,946,273?
- 8) What is the value of the 4 in the number 362,491?
- 9) What is the value of the 9 in the number 35,942?
- 10) What is the value of the 2 in the number 12,698?
- 11) What is the value of the 2 in the number 25?
- 12) What is the value of the 3 in the number 357?
- 13) What is the value of the 8 in the number 784,563?
- 14) What is the value of the 4 in the number 5,439?
- 15) What is the value of the 8 in the number 92,816?
- 16) What is the value of the 8 in the number 728,491?
- 17) What is the value of the 3 in the number 243,815?
- 18) What is the value of the 9 in the number 495,873?
- 19) What is the value of the 8 in the number 14,283,576?
- 20) What is the value of the 7 in the number 47,856?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
