

Solve each problem.

- 1) What is the value of the 4 in the number 284,375?
- 2) What is the value of the 1 in the number 491,657?
- 3) What is the value of the 5 in the number 25,847?
- 4) What is the value of the 1 in the number 162?
- 5) What is the value of the 6 in the number 67?
- 6) What is the value of the 1 in the number 72,918?
- 7) What is the value of the 5 in the number 815,369?
- 8) What is the value of the 5 in the number 37,519?
- 9) What is the value of the 2 in the number 26,579?
- 10) What is the value of the 1 in the number 715?
- 11) What is the value of the 3 in the number 1,358?
- 12) What is the value of the 3 in the number 638,795?
- 13) What is the value of the 4 in the number 354,862?
- 14) What is the value of the 3 in the number 35,128?
- 15) What is the value of the 6 in the number 263?
- 16) What is the value of the 5 in the number 835,714?
- 17) What is the value of the 3 in the number 2,534,179?
- 18) What is the value of the 6 in the number 64,372?
- 19) What is the value of the 7 in the number 879,452?
- 20) What is the value of the 8 in the number 59,816?
