

Solve each problem.

- 1) What is the value of the 9 in the number 9,672?
- 2) What is the value of the 2 in the number 69,428,375?
- 3) What is the value of the 1 in the number 1,489?
- 4) What is the value of the 2 in the number 397,621?
- 5) What is the value of the 9 in the number 913?
- 6) What is the value of the 6 in the number 296,734?
- 7) What is the value of the 7 in the number 594,783?
- 8) What is the value of the 3 in the number 64,938,715?
- 9) What is the value of the 2 in the number 425,137?
- 10) What is the value of the 9 in the number 418,956?
- 11) What is the value of the 8 in the number 659,283?
- 12) What is the value of the 1 in the number 194?
- 13) What is the value of the 9 in the number 98?
- 14) What is the value of the 5 in the number 6,514?
- 15) What is the value of the 8 in the number 3,178,694?
- 16) What is the value of the 2 in the number 21,768?
- 17) What is the value of the 3 in the number 37?
- 18) What is the value of the 3 in the number 438?
- 19) What is the value of the 6 in the number 85,673?
- 20) What is the value of the 3 in the number 243,679?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
