## Rewrite each number sentence using numerals and symbols.

1) The difference between nine and N is seven
2) The product of six and $P$ is fifty-four
3) E divided by ten equals ten
4) The sum of nine and $C$ is seventeen
5) The difference between four and W is two
6) D times six equals fifty-four
7) one hundred divided by $Z$ equals ten
8) The sum of one and $T$ is three
9) nine minus A equals three
10) $K$ times three equals twelve
11) $B$ divided by ten equals ten
12) H plus four equals seven
13) eight minus $Y$ equals five
14) G times four equals twenty-eight
15) one hundred divided by $F$ equals ten
16) two plus $B$ equals eight
17) six minus A equals three
18) eight times $\mathbf{J}$ equals sixty-four
19) one hundred divided by $U$ equals ten
20) The sum of $R$ and three is thirteen
