

**Rewrite each number sentence using numerals and symbols.****Answers**

- 1) two minus T equals one
- 2) The product of E and nine is ninety
- 3) A divided by ten equals ten
- 4) The sum of five and F is fourteen
- 5) seven minus B equals three
- 6) The product of R and nine is thirty-six
- 7) one hundred divided by Z equals ten
- 8) U plus six equals sixteen
- 9) The difference between fourteen and N is four
- 10) C times seven equals seventy
- 11) M divided by ten equals ten
- 12) The sum of G and nine is fourteen
- 13) The difference between six and K is one
- 14) The product of nine and Y is seventy-two
- 15) one hundred divided by P equals ten
- 16) The sum of seven and D is twelve
- 17) seven minus W equals four
- 18) The product of five and A is thirty-five
- 19) B divided by ten equals ten
- 20) three times H equals fifteen
